PROJECTS

YEG Property Analysis

Personal Project| Analyze and visualize Edmonton property prices using Python related numerical and graphical packages.

Nursing Analysis

Personal Project | Analyze and visualize data related to nursing profession within Canada, data collected from various federal open data sources to create an interactive dashboard via Plotly Dash.

Cancer CNN

Personal Project | Utilize a CNN to analyze MRI scans of brain tumors to classify brain tumor type using Python with Tensorflow and Keras packages.

Diabetes Analytics

Personal Project| Analyze diabetes dataset obtained from 130 US hospitals from 1999-2008, to find trends and meaningful insights related to diabetes readmissions.

Healthcare SQL

Personal Project| Utilize SQL Server Management Service (SSMS) with T-SQL scripting to upload and analyze healthcare data to perform EDA and summarize data.

Advanced SQL

Personal Project| Utilize SSMS with T-SQL scripting to create a mock employee database and perform various basic and advanced analytical queries.

EDUCATION

Bachelor of Science -General (Physics Major/ Mathematics Minor)

2019

University of Alberta | Edmonton,AB

PROFESSIONAL DEVELOPMENT

IBM Data Science Certification

2022

Coursera | MOOC

Data Science Certification

2020

Northern Alberta Institute of Technology (NAIT) | Edmonton,AB
